Akshay Pratap Singh

6306155723 krishnarathore2302@gmail.com LinkedIn-singh-pratap-akshay GitHub-akshay6306

Professional Summary

A Computer Science undergraduate with a strong passion for full-stack development and problem-solving. Skilled in building practical digital solutions through projects such as weather apps, job boards. Adept at quickly learning and applying new technologies to create scalable, user-friendly applications.

Skills

Programming language: Java , C , Python
Frontend: HTML, CSS, JavaScript
Tools: GitHub, VS Code, Canva
Concepts: Data Structures & Algorithms (DSA)
Soft Skills: Communication skills, Team-Work, Leadership, Time Management, Quick Learning

Internships

Summer Boot-Camp (Sharda University) **[May 2025 – June 2025]**

- Built a strong understanding of DSA concepts through hands-on coding practice and logical problem-solving sessions.
- Gained practical knowledge of Web Development using HTML, CSS, JavaScript, and ReactJS through hands-on projects.
- Participated in aptitude sessions and group activities, improving communication, teamwork, and time management.
- Collaborated in mini-project development, applying theoretical concepts to real-world problem-solving scenarios.

Projects

Weather Web Application (https://github.com/akshay6306/Weather-App) **[Jun 2025 - Jul 2025]**

- Built a real-time weather forecasting application that shows temperature and conditions based on city search.
- Used HTML, CSS, JavaScript and REST API integration for fetching live weather data.
- Added enhanced error handling, mobile-responsive UI, and smooth dynamic updates beyond basic weather apps.

Quiz-Hub Application (https://github.com/akshay6306/Quiz_app) **[Jul 2024 - Nov 2024]**

- Developed an interactive quiz application with multiple-choice questions and instant score display.
- Used HTML for structure, CSS for styling, and JavaScript for logic and question handling.
- Added timer, progress tracking, and result analysis features beyond a basic quiz system.

RESEARCH / PUBLICATIONS

NyaySetu: An AI-Assisted Legal Suggestion System **[Apr 2026]**

- Developed an NLP-based legal query classification system using TF-IDF and machine learning techniques.
- Implemented text preprocessing and evaluated classification models including Naive Bayes and SVM for legal issue categorization.
- Contributed to a modular AI platform that provides legal guidance and lawyer recommendations through a conversational interface.
- Built evaluation pipelines and supported ethical, privacy-focused AI deployment.

Certificates

- **Java:** Oracle Java Foundations Certification
- **Web Development:** Eduonix Learning Solutions (July 2024)

Achievements

- Participated in Smart India Hackathon (SIH).
- Technocrates, Sharda University — Campus-level tech competition participant
- Hostel Premier League, Sharda University — Campus-level Cricket Tournament
- Solved 100+ problems on LeetCode, strengthening problem-solving and DSA skills in Java.

Education

Sharda University, Greater Noida, India	CGPA 7.3	[August,2023 – Present]
B.Tech. in Computer Science &Engineering		
Intermediate(ICSE)	84%	[2023]
Matriculation(ICSE)	80%	[2021]
